

CAPABILITY STATEMENT

MEP Engineering & Design for U.S. Projects

Expand your engineering capacity with an experienced Mechanical, Plumbing, and Electrical team supporting projects across the United States.

900+

U.S. Projects Supported

20+

U.S. States

20+

Years of Engineering Experience

⚙ Engineering Built Around Your Project

Whether we are providing complete MEP engineering services for a project or working as an extension of an existing engineering team, we adapt to each client's workflow, standards, and project requirements. Our goal is simple: reliable engineering, clear communication, and coordinated project delivery.

⚙ Our Services

M

Mechanical Engineering

HVAC design and production support for multifamily, residential, commercial, retail, restaurant, and tenant improvement projects.

P

Plumbing Engineering

Plumbing design and production support coordinated with architectural, mechanical, structural, and electrical disciplines.

E

Electrical Engineering

Electrical design and production support coordinated with the complete project team.

⚙ Industries We Serve

Multifamily Residential

Commercial & Office

Retail

Restaurants & Food Service

Residential

Other Project Types

⚙ Why Clients Work With Us

- U.S. Project Experience
- Flexible Engineering Capacity
- Multidiscipline Support
- Integration With Your Workflow
- Responsive Communication
- Long-Term Partnership

⚙ Software, Standards & Deliverables

- AutoCAD
- HVAC equipment selection software
- Manufacturer selection tools
- PDF review and markup workflows
- AutoCAD DWG files
- PDF construction documents
- Equipment schedules
- Engineering calculations

⚙ Quality Assurance & Confidentiality

Every project is developed according to the agreed scope and reviewed before delivery.

Every deliverable is engineer-reviewed, version-controlled, and checked against the project's adopted code and client standards.

Klima-Energo treats client and project information as confidential and uses it solely for the purpose of completing the agreed engineering services.
